SUMMARY

IT support candidate with CompTIA A+, Network+, Security+ and ITIL 4, finishing a B.S. in Cybersecurity and Information Assurance (WGU, January 2028). Six years at Amazon in floor leadership, quality audits and SOP training, plus three years of direct customer support. Hands-on with Microsoft 365, Entra ID, Windows and PowerShell through self-built labs.

CERTIFICATIONS AND EDUCATION

- **CompTIA** Security+, Network+, A+ (2025) | **ITIL 4 Foundation** in IT Service Management (2026)
- **Western Governors University**, B.S. Cybersecurity and Information Assurance (in progress, expected January 2028)
- **University of Central Florida**, Full Stack Web Development Bootcamp Certificate

TECHNICAL SKILLS

- **Support:** ITIL 4 incident and request concepts, ticket creation and routing, escalation, end-user training, documentation
- **Windows and systems:** Windows 10/11, Server 2022, Active Directory basics, Hyper-V, hardware/peripheral troubleshooting
- **Microsoft 365 and identity:** users, groups and licenses, Entra ID, MFA, RBAC, least privilege, Conditional Access, SharePoint
- **Networking and security:** TCP/IP, DNS, DHCP, subnetting, Wireshark, Nmap, DISA STIG hardening, SCAP scanning, Sysmon
- **Scripting and tools:** PowerShell, Power Automate, Python (basic), Git and GitHub

PROFESSIONAL EXPERIENCE

Amazon Fulfillment Centers, Orlando, FL and Knoxville, TN | Oct 2020 – Present

Fulfillment Associate, Pick and Pack (MCO1) | May 2024 – Present

- Pick and pack customer orders across singles, multi-item and SLAM stations to rate and quality standards.

Quality Process Assistant, New Site Launch (TYS1) | Jul 2023 – Apr 2024

- Raised weekly SOX audit compliance from about 63–70% to 99%+ within one month, and held it, through structured tracking and training on every shift.
- Wrote exception-handling SOPs that cut unresolved inventory exceptions from 50+ pods across four floors to 1–2 per floor.
- Analyzed count error trends and drove process fixes that cut ICQA DPMO from about 37k to 10k.
- Created trouble tickets to route inventory and quality issues to the departments that owned them.
- Trained associates and problem solvers on count, escalation and audit procedures; built the quality team's daily wiki page.

Stow Process Assistant (MCO1) | Jun 2021 – Jul 2023

- Led daily start-ups for 60–80 associates and staffed the floor; escalated when out-of-work andons passed 50 a shift.
- Guided Area Managers through filing trouble tickets, routing each through category filters to the right department.
- Kept stations running: swapped label printers, reconnected handheld scanners, adjusted overhead scanner lights.
- Trained water spiders and problem solvers and mentored new PAs; team ranked #1 in building productivity.

Fulfillment Associate (MCO1) | Oct 2020 – Jun 2021

- As a Process Guide, supported Area Managers and PAs with audits, floor readiness and headcount moves.

Massey Services, Kissimmee, FL | Feb 2017 – Aug 2020

Pest Prevention Specialist and Customer Support

- Primary contact for 215–280 recurring clients by phone and on site: scheduled service, resolved issues, collected payments, and kept records for state licensing.

TECHNICAL PROJECTS (SELF-DIRECTED)

Microsoft 365 / Entra ID Administration Lab | 2025 – 2026

- Created users, groups, licenses and scoped admin roles; tested Conditional Access in report-only mode.

Workspace: SharePoint-style intranet | 2026

- Connected to a live Microsoft 365 tenant via MSAL and SharePoint; fixed a stored XSS flaw; 454 automated checks.

Windows Hardening and Monitoring Labs | 2025 – 2026

- DISA STIG scan of a Windows 10 VM (137 of 225 rules open); a separate lab hardened 4 controls; scheduled drift monitoring.
